Our Testimonials

I have used South Ribble Taxis multiple times on a personal level for transport to and from Manchester airport. Having previously used other firms from Leyland/Preston I can comfortably say they are the most competitively priced taxi company around the local area. While they are low in cost they do not lack in customer service and professionalism. I have no concerns that South Ribble taxis will fail to deliver with service, so much so that I will be using them for business clients should the need arise! Keep up the great work and service

James Mattison
